

Dear C.W. Post Faculty:

In an effort to share best practices in assessment, you are invited to attend an upcoming fall assessment workshop to be led by Kathleen Morley, University Director of Assessment.

- **When: Friday, October 30, 10:30-12:30 pm**
- **Location: Top of the Commons**

This event is designed to help C.W. Post faculty understand how to develop student learning goals and objectives, which factors to consider in choosing measurements, and which steps to take in developing rubrics. The workshop will review Bloom's Taxonomy and discuss how it can be applied to the process of writing learning objectives.

Participants are asked to bring materials relevant to their own program's current plans for assessment of student learning (e.g., exam items, survey questions, sample student assignment for developing a rubric). Time will be provided for faculty to work on the development of their assessment measures.

Please RSVP to Kathleen Morley: kathleen.morley@liu.edu. Thank you.
